pleased to meet you
we're Crown

We're Crown International - a dutch based company that has been established more than 15 years ago. We are specialized in designing, producing and stocking OS&E products. Having had the pleasure of working with hoteliers and hotel chains in more than 60 countries, we understand the demand from a design as well as from a functional perspective. Over the years our range has developed into a wide variety of must-haves. Our high quality PU leather items, elegant bathroom accessories and charismatic interior items are a perfect welcome asset to each room.

Get inspired by our refined design, valuable materials and unique quality!

52°29'70.717,6°90'58.442

The place where it all happens

When you consider Dutch culture, you can't help but think about dikes, windmills, wooden shoes and tulips. They seem cliché, but these classic icons intertwine with the region's geography and history.

But the Netherlands is more than a country with a rich historical and traditional heritage. This small country still manages to stand out for its great inventiveness, its problem-solving attitude, and its openness to the world.

Our own Dutch design impresses with progressive solutions and trend-setting ideas. Minimalistic and experimental, innovative-unconventional and with a winking sense of humor - this is how the typical Dutch design aesthetic can be described. Our design tradition is versatile, innovative, inimitable, serious-solution-oriented and playful-optimistic at the same time. It is a constant search for the balance between old and new, craft and technology.

With the perfect combination of inspiring colors, carefully selected materials and a keen eye for detail, our Catalogue 2022/2023 was created. Start your journey through our exciting must-haves and timeless classics.
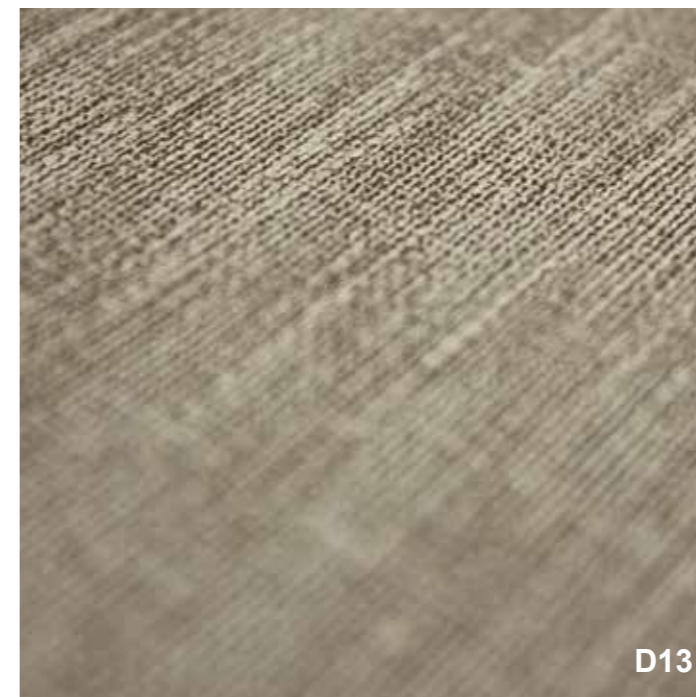

"Originality is a return to the origin"
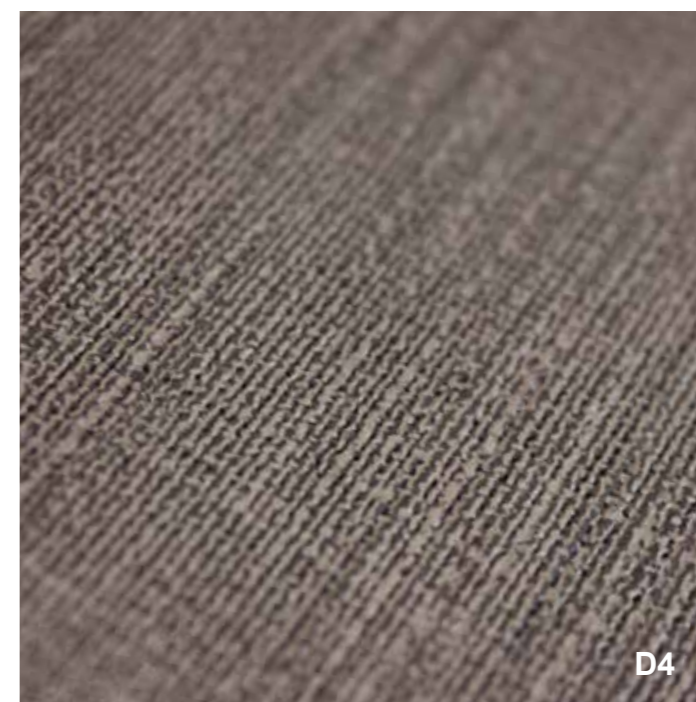

Antoni Gaudi

it's passion
that led us here

OUR PHILOSOPHY

In our fast-moving time, a hotel room is more and more getting a place for rest and relaxation. That's why hotel items do not only have to be functional but also individual and comfortable. We love (co-) creating contemporary products for hotels in the EMEA region and are 100% dedicated to room OS&E.

At Crown, we believe that our success starts from our people. Each and every one of us, with our varied abilities, strengths and potential. A culture should be built from the inside out. Growth, customer focus and performance have many metrics. But we believe the most important is the satisfaction of our people and as a result the satisfaction of our customers. One of the core values is respect. We want to show respect for our customers by delivering great design and quality at the right price.

We love to create en produce products that people love to use.
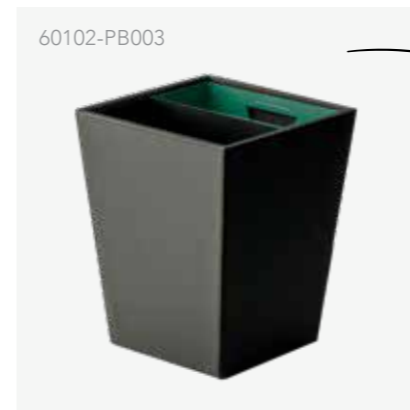

"Only the own way
 leads to own goals ."

responsibility
towards fellow man and nature

Responsible behaviour against the environment is of huge significance for us. That's why protection of the environment and our production go hand in hand at Crown. We stand for applied raw materials and adopt several measures to save resources.

It is our ambition to ensure peace of mind for people through responsible production and take good care of nature, wildlife and the global climate. Even small actions can make a difference, and our actions aim to contribute to the sustainable development that is becoming increasingly important for the future of our planet. Although we still have some way to go, we have already come a long way.

From the first sketches of a new idea, to when a product leaves our warehouse gates, we always consider responsibility. As one of our environmental goals is prioritizing long life-cycle products. All Crown products are designed to be long-lasting and safe to use.

As a result we do not only save nature, but also benefit from a good standard of life and ensure a good environment for all of us.

BEHIND
the scenes

IN-HOUSE DESIGN

From intensive dialog with interior designers and hotels we continuously develop new and customized products. Inspiration and creativity lead us to the development of products full of character. We work with specialists who are driven by passion to ensure a certain level of quality and eye for detail. This allows you to focus on the pure aesthetics of the product. We gather, research, and develop new materials, elements and styles on a daily basis.

SERVICE

Product quality and customer service excellence have always characterized Crown ever since. Wherever a request comes from, worldwide, our customers will always find a ambitious team ready to process it. After all, we want customers to remain pleased with our products over the long term and continue to derive satisfaction from them.

CRAFTMANSHIP

Production is more than manufacturing; it encompasses everything from design, to consumer behavior and end-of-use cycles. Our own manufacturers use the most modern and state-of-the-art PU leather production equipment to produce various surfaces and combinations. The experienced and sophisticated workers create high-quality products out of valuable raw material. Crown combines real craftsmanship with the latest trends and technologies. Working with the best materials, finishes, and manufacturing-processes gives the trust of our expertise.

COLORS

on stock

Colors emphasize feelings and style. It reflects and influences the soul some say. Selecting the right color isn't always easy but choosing the right one makes it count.

We understand the growing need to create custom spaces and therefore we carefully assembled a collection of as well timeless as modern color swatches.

OUR BESPOKE SOLUTIONS

From intensive dialog with interior designers and hotels we continuously develop new and customized products. We gather, research and develop new materials, elements and styles on a daily basis. Inspiration and creativity lead us to the development of products full of character. We work with specialists who are driven by passion to ensure a certain level of quality and eye for detail. This allows you to focus on the pure aesthetics of the product.

Crown wants to make the difference by creating what others don't. Our products are the keen result of creative in-house design. We want to convince you with our dynamic creations: unique, innovative and decidedly Dutch! Our items can be playfully combined and give our customers the possibility to realize their own ideas to create individual one-off pieces.

"In love with details,
 inspired by harmonies"

a perfect match

In addition to our experience our projects are created with passion and craftsmanship. We are always happy to take on new projects and bring any vision to life.

IRONING

accessories

Fashions fade
Style is eternal.

Planters

We offer a huge assortiment of planters.

www.plantinum.nl

on stock

& on the way

The finished product is stored, moved and delivered from our own central warehouse. We deliver products that have been ordered at the right time and place in a cost-effective way and to the satisfaction of our customers. Our warehouse, dispatch, distribution, purchase, logistics and fleet teams work together in order to meet our targets.

Our product warehouse measures nearly 1100m², providing a total storage capacity of 880 pallets. In addition to serving production, distribution and sales, we also register and store this amount of products as well as safeguarding its quality and quantity. Our own production lines, which secure quality as well as flexibility, are continuously expanded.

Direct logistic services from our own warehouse or factory ensure a fast and safe delivery.
