ARTE INOSSIDABILE

**Atmosfera
Porcellana**

The Atmosfera Porcellana collection represents a breakthrough in formal research. We have captured the extraordinary elegance and tactile finish of traditional porcelain and fused it with the strength of 18/10 stainless steel.

This is an exclusive finish that overcomes the limitations of traditional materials: **it offers the look of the most prestigious porcelain without the risk of breakage.**

The collection is made of 18/10 stainless steel and features and is distinguished by an exclusive powdercoating finish. Thanks to a newly developed in-house technology, the Atmosfera finish is resistant to dishwashers, scratches, and chemical detergents, ensuring practicality and long-lasting durability without compromising aesthetics.

The porcelain inner finish enhances the elegance of the external shapes, highlighting their lines and giving the product a refined balance that emphasizes its beauty.

- 16 Pieces
- Vulcan Grey, Materic Gold, Materic Bronze

PORCELLANA

La collezione è realizzata in acciaio inossidabile 18/10 ed è caratterizzata da un esclusivo trattamento di verniciatura. Grazie a una nuova tecnologia sviluppata internamente, la finitura **ATMOSFERA** è particolarmente resistente alla lavastoviglie, al graffio e ai detergenti chimici, garantendo praticità e durata senza compromessi estetici.

La finitura interna in porcellana esalta l'eleganza delle forme esterne, valorizzandone le linee e donando al prodotto un equilibrio raffinato che ne sottolinea la bellezza complessiva.

The collection is made of 18/10 stainless steel and features and is distinguished by an exclusive powdercoating finish. Thanks to a newly developed in-house technology, the **ATMOSFERA** finish is highly resistant to dishwashers, scratches, and chemical detergents, ensuring practicality and long-lasting durability without compromising aesthetics.

The porcelain inner finish enhances the elegance of the external shapes, highlighting their lines and giving the product a refined balance that emphasizes its beauty.

La collection est réalisée en acier inoxydable 18/10 et se distingue par un traitement exclusif de peinture en poudre. Grâce à une nouvelle technologie développée en interne, la finition **ATMOSFERA** est particulièrement résistante au lave-vaisselle, aux rayures et aux détergents chimiques, garantissant praticité et durabilité sans compromis esthétique.

La finition intérieure en porcelaine sublime l'élégance des formes extérieures, en valorisant leurs lignes et en conférant au produit un équilibre raffiné qui souligne sa beauté

Die Kollektion wird aus Edelstahl 18/10 gefertigt und zeichnet sich durch eine exklusive Beschichtung aus. Dank einer neu entwickelten, hauseigenen Technologie ist die **ATMOSFERA** Oberfläche besonders spülmaschinenfest sowie widerstandsfähig gegen Kratzer und chemische Reinigungsmittel und garantiert so Funktionalität und Langlebigkeit ohne ästhetische Kompromisse.

Die innere Porzellanoberfläche unterstreicht die Eleganz der äußeren Formen, betont ihre Linienführung und verleiht dem Produkt eine ausgewogene, raffinierte Gesamtwirkung.

La colección está realizada en acero inoxidable 18/10 y se caracteriza por un exclusivo tratamiento de revestimiento. Gracias a una nueva tecnología desarrollada internamente, el acabado **ATMOSFERA** es altamente resistente al lavavajillas, a los arañazos y a los detergentes químicos, garantizando practicidad y durabilidad sin comprometer la estética.

El acabado interior en porcelana realza la elegancia de las formas exteriores, destacando sus líneas y aportando al producto un equilibrio refinado que subraya su belleza global.

PORCELLANA

Su richiesta, la finitura Atmosfera può essere realizzata anche in colori personalizzati. Per ogni colore viene sviluppata una specifica ricetta, studiata per garantire uniformità, qualità e fedeltà cromatica.

Upon request, the Atmosfera finish can also be produced in customized colors. For each color, a dedicated color recipe is developed to ensure consistency and quality.

Sur demande, la finition Atmosfera peut également être réalisée dans des couleurs personnalisées. Pour chaque teinte, une recette couleur spécifique est développée afin de garantir cohérence et qualité.

Auf Anfrage kann die Atmosfera-Oberfläche auch in individuell gestalteten Farben gefertigt werden. Für jede Farbe wird eine eigene Farbrezeptur (Rezept) entwickelt, um höchste Qualität und gleichbleibende Ergebnisse zu gewährleisten.

Bajo solicitud, el acabado Atmosfera también puede realizarse en colores personalizados. Para cada color se desarrolla una receta específica que garantiza coherencia y calidad.

Per questo motivo è necessario fornire il codice RAL del colore prescelto. Di seguito sono riportati alcuni esempi.

For this reason, clients are required to provide the RAL code of the selected color. Below are some of the color examples.

Il est donc nécessaire de nous communiquer le code RAL de la couleur choisie. Vous trouverez cidessous quelques-unes des couleurs exemples.

Aus diesem Grund ist die Angabe des RAL-Codes der gewünschten Farbe erforderlich. Nachfolgend einige Farben Beispielen.

Por este motivo, es necesario que nos envíen el código RAL del color seleccionado. A continuación se muestran algunos de los colores de muestra.

Stress-Testing

To guarantee durability beyond standard daily use, our finish was subjected to an aggressive 10-day chemical contact test. The testing agents were replenished every 24 hours to maintain maximum potency throughout the cycle.

The Agents: The surface was tested against 14 distinct corrosive agents and common household cleaners, including:

- Corrosive Acids & Bases: Acetic Acid (Concentrated & 20%), Ammonia (30%), and Concentrated Sodium Hypochlorite (Bleach 14%).
- Oxidizing Agents: Hydrogen Peroxide (13 vol. and 130 vol.).
- Limescale Removers & Degreasers: Viakal, Pulirapid, Chanteclair Sgrassatore.
- Surface Polishers: SMAC (Brilla Metalli & Brilla Acciaio), ACE Bagno Brillante.
- Daily Hygiene: Lysoform and Fluoride Toothpaste.

The Result: Even under these extreme conditions—far exceeding normal exposure—the finish maintains its integrity, proving its exceptional resistance to oxidation, abrasion, and chemical attack.

Physical Resistance

Built to withstand the rigors of daily service.

Beyond chemical resilience, the Atmosfera Porcellana finish is engineered for mechanical durability. The adjacent video demonstrates a standard scratch test, highlighting the coating's ability to repel abrasions that would typically damage it.

Improved resistance: Our technology creates an internal hardened surface shield that significantly improves resistance against metal-on-metal contact, stacking abrasion, and aggressive scouring.

Long-Lasting Aesthetics: This ensures that the unique "porcelain touch" texture remains pristine over time, maintaining the product's value long after the initial purchase.
