

# 2023 GLASSWARE HORECA COLLECTION

**ArdaCam is one of the major spinning handmade glass manufacturers and decorators in Europe.**

ArdaCam Glassware collaborates with the majority of the leading retail brands in 105 countries. With the launch of our own HoReCa brand, we wish to create designs that support the pieces of art that chefs and the chefs at heart around the world create. We want to develop ourselves and our product line in accordance with the principles of sustainability.

We are focused on having a sensitive approach to making an environmentally friendly production.

We always believe in our innovative and creative sides in design.

## Leading Manufacturer in the Glass Sector

Our production facility, located in Istanbul, is built on an area of 20,000 m2. It provides employment for 400 people by closely following innovative technology with its investments.

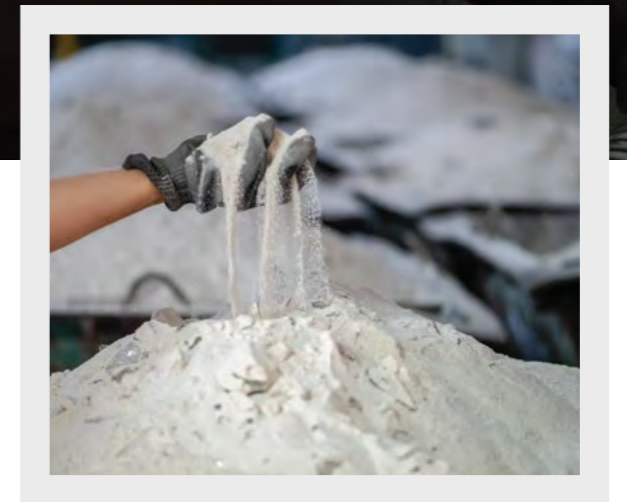

**We look forward to meeting you with our 33 years of experience.**

## Spinning

The spinning method is applied as the molten glass is taken into a mold and rotated around the axis of the mold, and the glass takes shape in the mold.

The spinning method has been widely used in every period from the past to the present.

# Why Alabaster?

- Alabaster comes from a soft and translucent stone that is often used for carving. It has always been used for decorative artifacts.
- Alabaster colors are special when applied while fusing glass.
- The colors are protected by a layer of glass. There is no contact between the alabaster color and food or drink.
- Alabaster decorating allows for giving color to the glass without losing its transparency.
- Colors can be mixed together to create unique results.
- It is a natural stone, which increases the durability of the product.
- Long-lasting and scratch-proof decoration.
- Suitable for tableware items.
- Lifetime dishwasher-safe guarantee.
- Possible combination with other materials.

## Art From The Nature.

**We are inspired by the smoke of the dishes cooked with passion!**

## For the Chefs

We want to develop ourselves and our product line in accordance with the principles of sustainability.

Our 100% handmade product collections will complement your dishes.

## For the Chefs at Heart

For your table presentations.

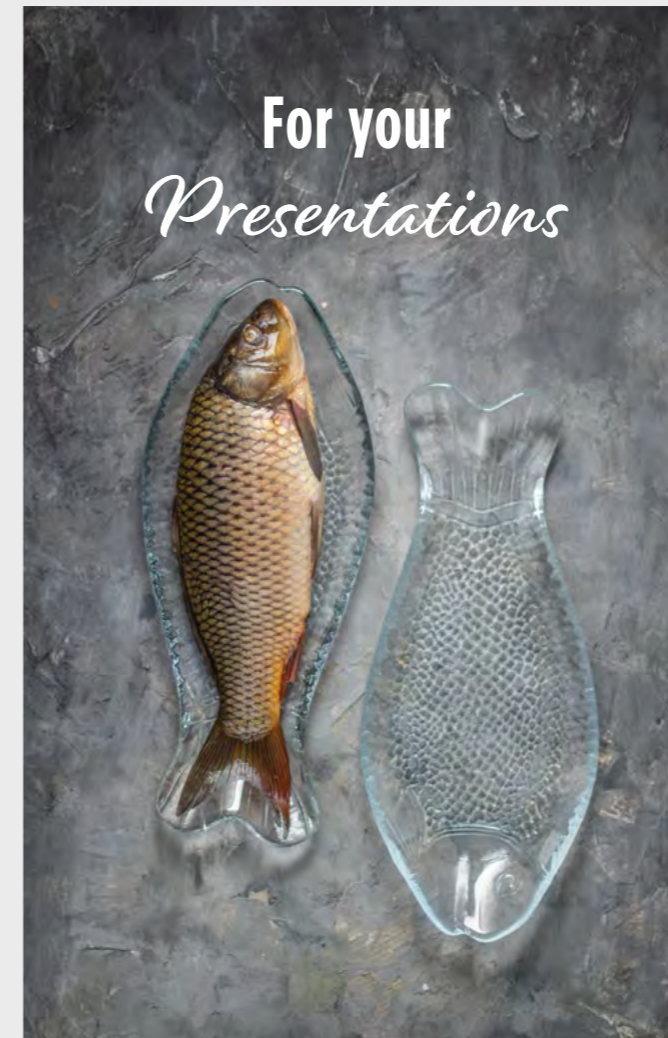

We are focused on having a sensitive approach to making an environmentally friendly production.

## For your Tables

The smell of smoke and the passion for cooking in a kitchen inspire us.

## For your Presentations

Include our stylish and timeless designs on your tables.

# Glass Care

- Glass material is safe to use in food storage and for both hot and cold food. Food can be directly stored or served with glass products.
- Glass is a recyclable material and safe for human health.
- All glass products are dishwasher-safe, including industrial dishwashers. It is advised to avoid harsh chemicals when cleaning glass products. Harsh chemicals might corrode the surface of the products.
- Do not scrape the food leftovers with a metal utensil to avoid any damage to the product.
- Over stacking is not recommended as glass is a fragile material.

- It is not safe to use glass products in the oven. Additionally, direct flame, excessive heat, or sudden temperature changes should be avoided for product safety.
- Always wash all glass products before using them for the first time.

# PRODUCT DETAILS

Collection	Product Code	Color Code	Product Description	Size	Inner Box Quantity	Outer Box Quantity	Outer Box Dimensions	Box Per Pallet
