Designed for a sustainable table setting

The innovative material Bio Dunisoft® was introduced in 2021. Now we are making it available in designed napkins too. Invite your guests to a premium dining experience that has a positive impact on the environment.

- Fossil-free and renewable materials
- Reduced CO₂ emissions by up to 20% compared to previous material
- FSC®-certified
- Packaging recyclable as paper and plastic
- OK Compost HOME certified

Yes to potatoes!

Potatoes are great for many reasons, but mainly because they are so versatile. They can be boiled, fried, smashed and mashed. And their starch can be extracted to produce an organic binder for table covers.

That's what we did to develop this brand new material - **Bio Dunicel®**.

read more

Premium table covers made from potatoes

The Bio Dunicel® table covers may look and feel like the table covers you are used to, but it's the inside that makes all the difference.

With the new and unique, fossil-free ingredients, you can create a good food mood that truly matters.

- Fossil-free and renewable materials
- Reduced CO₂ emissions by 28% compared to previous material
- FSC®-certified
- Packaging recyclable as paper and plastic
