

SASKIA™

PROFESSIONAL & RETAIL
PRODUCTS FOR SPA

ABOUT US

SASKIA started in 2015 as a professional Spa brand and launched its products for home use in 2018 to deliver the new concept of “SPA at HOME”. The brand started as part of a third generation cosmetics family business. An international collaborative effort that led to bringing only the finest ingredients, the most advanced high-tech molecules and carrier systems, and combining them with the purest Grade A essential oils to form new formulas and textures for men and women who appreciate quality, purity, and luxury.

Since 2015, SASKIA brings innovation and a unique luxury wellness experience to premium quality spas. We do not mass-produce or store in warehouses. Our organic bases are blended with your choice of pure essential oils in hand-made creations, freshly made to order. We tailor to your exact needs and desires.

SASKIA is an integrated spa solutions provider. We help Spa managers and Spa consultants around the world create new and exciting concepts. We also customize protocols and Spa accessories to ensure overall consistency and flow.

THE POWER OF ESSENTIAL OILS

Carefully selected for their quality and unique properties, our essential oils are therapeutic grade and at the heart of every SASKIA formula, for an optimal efficacy.

Their unique blend makes them powerful treatments with a targeted action on the skin, the hair, but also on the mind for an overall and tailor-made well-being.

Beyond the skincare benefits, essential oils are recognized for their emotional benefits.

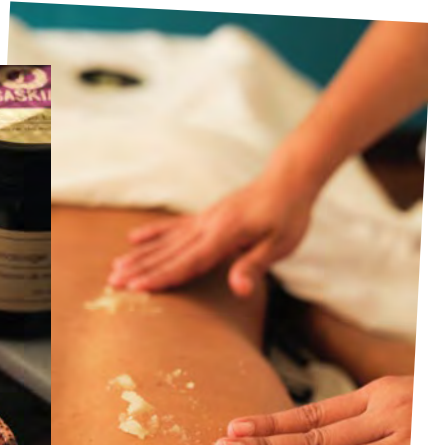

To offer a pure experience, we decided to not add any artificial fragrances and rely on the natural perfuming power of Essential Oils to nurture the body and awaken the senses.

Our products are paraben-free, made without any artificial additives or synthetic fragrances, and enriched with a selection of the purest essential oils for Spas to choose from.

SPA RITUALS

We customize our spa protocols to create unique treatments for each and every Spa we collaborate with.

Our therapeutic rituals are based on various natural ingredients blended with essential oils. SASKIA retail product selection contains over 100 different products the spa guest can take home to maximize the benefit of the treatment.

- massage products
- facial products
- scrubs
- wraps
- bathroom amenities

RELAXATION AREAS

Surround your guests with a luxurious ambiance. Choose from a variety of hundreds of products from SASKIA HOME collection that can be used in the spa, the dressing areas and can also be sold as retail products.

- presentation trays
- candles
- burners and burner oils and many more..

MENU CREATION, PROFESSIONAL TRAINING ON SASKIA PROTOCOLS AND RETAIL MANAGEMENT

Our services are carefully curated to provide you with all your spa needs! We assist spa managers and spa consultants around the world through creating new and exciting concepts in order to ensure continuous satisfaction amongst all clients.

- all products are freshly made to order
- customized products and protocols
- staff training
- menu design
- decoration and ambience products
- professional spa consultancy
